

Bodisen Biotech to Report Record 2nd Quarter 2004 Financial Results in the Week of July 26, 2004

Thursday July 22, 10:45 am ET

NEW YORK--(BUSINESS WIRE)--July 22, 2004--Bodisen Biotech, Inc., (stock symbol: BBOI, website: www.bodisen.com), a Delaware corporation, is a leading biotech company with proprietary technologies for developing, manufacturing and marketing environmentally friendly organic agricultural products for the Chinese markets. The company expects to report record earnings for the Q2 2004 reporting period, to be announced in the week of July 26.

Using proprietary technologies, Bodisen sells over 60 packaged products, broken down into 3 product categories: Organic Compound Fertilizer; Organic Liquid Fertilizer; and Organic Pesticides & Insecticides. Bodisen's organic fertilizers can be absorbed by plants within 48 hours while enriching soil conditions without the damaging effects associated with chemical fertilizers. Bodisen's products can improve crop yields by 10-15% per acre, and increase yields of non-food crops such as cotton and fruits by over 30% per acre as compared to yields in fields not using Bodisen fertilizers.

About Bodisen Biotech, Inc.

Bodisen is headquartered in Shaanxi, China, an agricultural hub of China and the economic gateway to the western regions of China. The Bodisen brand is a highly respected organic brand in China. Its "green" products support the mandate of the Chinese national government to increase crop yields for the purpose of decreasing China's dependency on food imports. Bodisen's products enjoy brand recognition and a price premium over competitive brands in China. With distribution in 20 provinces and an expanding geographic footprint, Bodisen is well positioned to take advantage of the growing demand for organic bio agricultural products in China.

Safe Harbor Statement

This press release may contain forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. These statements are based on the current expectations or beliefs of Bodisen Biotech, Inc. management and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. The following factors, among others, could cause actual results to differ materially from those described in the forward-looking statements: adverse weather conditions, historical seasonality, loss of customers, increased competition and other risks detailed from time to time in filings with the Securities and Exchange Commission. Consequently, if such management assumptions prove to be incorrect or such risks or uncertainties materialize, the Company's actual results could differ materially from the results forecast in the forward-looking statements
