

## **Bodisen Biotech Announces Expansion of Manufacturing Capacity to Meet Strong Customer Demand**

Wednesday August 11, 10:53 am ET

NEW YORK--(BUSINESS WIRE)--Aug. 11, 2004--Bodisen Biotech, Inc., (OTC BB: BBOI, website: [www.bodisen.com](http://www.bodisen.com)) announced today that the company has completed the foundation for a new 609,840 sq. ft (14 acres) production facility which includes a high tech factory, administrative offices, warehouses and R&D laboratories. When completed in the fourth quarter of 2004, the new facility will increase annual organic fertilizer production output by 100,000 metric tons, doubling the current production output of a total of 200,000 metric tons. The company expects new manufacturing equipment to be installed in the fourth quarter of 2004, and initial product shipment to start by first quarter of 2005.

Ms. Qiong Wang, Chairman of Bodisen commented: "Our recent record second quarter earnings of \$0.12 per share indicates that our business model and strategy of driving operating efficiency while maintaining strict quality control standards for our products is producing results on the bottom line. We expect continued growth momentum for the remainder of this year and 2005. The new manufacturing facility will augment our production capacity by 100% and will boost our revenue considerably in the 2005 fiscal year. We continue to experience strong demand for our products."

Bodisen Biotech, a Delaware corporation, is a biotech company with proprietary technologies for developing, manufacturing and marketing environmentally friendly organic agricultural products for the Chinese markets.

Using proprietary technologies, Bodisen sells over 60 packaged products, broken down into 3 product categories: Organic Compound Fertilizer; Organic Liquid Fertilizer; and Pesticides & Insecticides. Bodisen's organic fertilizers can be absorbed by plants within 48 hours while enriching soil conditions without the damaging effects associated with chemical fertilizers.

About Bodisen Biotech, Inc.

Bodisen is headquartered in Shaanxi, China, an agricultural hub of China and the economic gateway to the western regions of China. The Bodisen brand is a highly respected organic brand in China. Its "green" products support the mandate of the Chinese national government to increase crop yields for the purpose of decreasing China's dependency on food imports. Bodisen's products enjoy brand recognition and a price premium over competitive brands in China. With distribution in 20 provinces and an expanding geographic footprint, Bodisen is well positioned to take advantage of the growing demand for organic bio agricultural products in China.
