

Bodisen Biotech's New Environmentally Friendly Pesticide Products Received Recommendation from the Chinese Ministry of Agriculture

Thursday October 14, 3:58 pm ET

NEW YORK--(BUSINESS WIRE)--Oct. 14, 2004--Bodisen Biotech, Inc., (stock symbol: BBOI, website: www.bodisen.com) announced today that the company has received a recommendation from the Chinese Ministry of Agriculture for field testing of a new environmentally friendly pesticide product. This new pesticide product was developed over a period of three years in collaboration between the company and the Northwest Agriculture and Forestry Institute, a leading agricultural research institute in China. Such a recommendation and successful field testing is required under Chinese law prior to the commercialization and sale of new agricultural products.

Ms. Qiong Wang, Chairman of Bodisen commented, "We are very excited about this new product since it would establish us a market leader for environmentally friendly pesticide products. We look forward to successful field testing and commercialization of this new product which would positively impact our revenue and bottom line."

Using proprietary technologies, Bodisen sells over 60 packaged products, broken down into 3 product categories: Organic Compound Fertilizer; Organic Liquid Fertilizer; and Pesticides & Insecticides. Bodisen's organic fertilizers can be absorbed by plants within 48 hours while enriching soil conditions without the damaging effects associated with chemical fertilizers.

About Bodisen Biotech, Inc.

Bodisen is headquartered in Shaanxi, China, an agricultural hub of China and the economic gateway to the western regions of China. The Bodisen brand is a highly respected organic brand in China. Its "green" products support the mandate of the Chinese national government to increase crop yields for the purpose of decreasing China's dependency on food imports. Bodisen's products enjoy brand recognition and a price premium over competitive brands in China. With distribution in 20 provinces and an expanding geographic footprint, Bodisen is well positioned to take advantage of the growing demand for organic bio agricultural products in China.
